

Irving Flood Control District Section III Fact Sheet

Purpose: Irving Flood Control District Section III (IFCD 3) is responsible for providing flood control facilities and operations and preserving the high quality of life provided in the Valley Ranch Community located in Irving, Texas. While providing an attractive setting for Valley Ranch, the hills and valleys of the area are such that some portions of the community have the potential for flooding as a result of heavy rains. IFCD 3 provides for the creation, maintenance and operations of a levee, system of canals and other facilities that help protect the people and property assets in Valley Ranch from these storms.
